New York, New York 10007

Dear Mr. Davis:

Subject: Historic Preservation Program  
Project No. Mass. HPR-7

We are enclosing a copy of the Resolution and Certificate of the Recording Officer which you requested in your letter of July 2.

We have been informed by Dr. Richard Hale, Acting Director of the State Historical Commission, that he has sent you a letter concerning action of his Commission with respect to the Parkman House.

We trust these will meet with your approval.

Very sincerely yours,

*James Drought*

RESOLUTION OF APPLICANT AUTHORIZING FILING OF  
APPLICATION FOR HISTORIC PRESERVATION GRANT

WHEREAS Section 709 of Title VII of the Housing Act of 1961, as amended, provides for the making of grants of Federal funds by the Secretary of Housing and Urban Development to States and local public bodies to assist in financing the acquisition of title to or other permanent interests in areas, sites, and structures of historic or architectural value in urban areas, and in their restoration and improvement for public use and benefit, in accord with the comprehensively planned development of the locality; and

WHEREAS the Boston Redevelopment Authority (herein sometimes referred to as "Applicant"), deems it necessary and in the public interest to undertake an historic preservation project (hereinafter called the "Project") with Federal grant assistance to improve and restore certain property for historic preservation located in the City of Boston, Suffolk County, Massachusetts, described as the George Francis Parkman House; and

WHEREAS title to or other permanent interests in said property have been previously acquired by the Applicant; and

WHEREAS it is estimated that the cost of said improvement and restoration will be \$208,000;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF THE BOSTON REDEVELOPMENT AUTHORITY

1. That an application be made to the Department of Housing and Urban Development for a grant in an amount authorized by Section 709 of Title VII of the Housing Act of 1961, as amended, which amount is presently estimated to be \$100,000, and that the Applicant will pay the balance of the cost from funds available to it.

2. That the Director of the Boston Redevelopment Authority is hereby on behalf of the Applicant authorized and directed to execute and to file such application, and an assurance of compliance with

the Department of Housing and Urban Development regulations under Title VI of the Civil Rights Act of 1964, to execute such contract or contracts as may be necessary for the grant applied for, to provide such information and furnish such documents as may be required by the Department of Housing and Urban Development, and to act as the authorized correspondent and representative of the Applicant in the accomplishment of the Project.

3. That the proposed Project is in accord with the comprehensively planned development of the locality, and that, should said grant be made, the Applicant will retain, maintain and preserve said property for public use and benefit and for the historic preservation purposes designated in said application and approved by the Department of Housing and Urban Development.

4. That the United States of America and the Secretary of Housing and Urban Development be, and they hereby are, assured of full compliance by the Applicant with regulations of the Department of Housing and Urban Development effectuating Title VI of the Civil Rights Act of 1964 and with Federal requirements relating to equal employment opportunity.

5. That the United States of America and the Secretary of Housing and Urban Development be, and they hereby are, assured of full compliance by the Applicant with the Federal labor standards imposed under Title VII of the Housing Act of 1961, as amended.

CERTIFICATE OF VOTE

The undersigned hereby certifies as follows:

(1) That he is the duly qualified and Acting Secretary of the Boston Redevelopment Authority, hereinafter called the Authority, and the keeper of the records, including the journal of proceedings of the Authority.

(2) That the following is a true and correct copy of a vote as finally adopted at a meeting of the Authority held on July 10, 1969 and duly recorded in this office:

Copies of a memorandum dated July 10, 1969 were distributed re

Application for Grant - Restoration of George Francis Parkman House, attached to which were copies of a Resolution.

A Resolution entitled "Resolution of the Boston Redevelopment Authority authorizing filing of an Application for Historic Preservation Grant" was introduced, read and considered.

On motion duly made and seconded, it was unanimously

VOTED: to adopt the Resolution as read and considered.

(3) That said meeting was duly convened and held in all respects in accordance with law, and to the extent required by law, due and proper notice of such meeting was given; that a legal quorum was present throughout the meeting, and a legally sufficient number of members of the Authority voted in a proper manner and all other requirements and proceedings under law incident to the proper adoption or the passage of said vote have been duly fulfilled, carried out and otherwise observed.

(4) That the Resolution to which this certificate is attached is in substantially the form as that presented to said meeting.

(5) That if an impression of the seal has been affixed below, it constitutes the official seal of the Boston Redevelopment Authority and this certificate is hereby executed under such official seal.

(6) That Hale Champion is the Director of this Authority.

(7) That the undersigned is duly authorized to execute this certificate.

IN WITNESS WHEREOF the undersigned has hereunto set his hand this 11th day of July 1969.

file

Mass HPR

Mr. Arthur Davis  
Department of Housing and Urban Development  
26 Federal Plaza  
New York, N.Y. 10007

Dear Mr. Davis:

The National Register Review Committee of the Massachusetts Historical Commission met on June 24, and considered the cases of two applications for grants from the Department of Housing and Urban Development, those of the "Parkman House," No. 33 Beacon Street, Boston and of the Avant House in Washpee.

After careful discussion of the Review Committee came to these conclusions:

1. That the group of three adjacent houses, Numbers 25, 33, and 34, Beacon Street, were worthy of inclusion in the National Register as a unit; and

2. That while the Avant House had undoubted historical value, whether that value was of National Register quality could not be determined until a comparative survey of similar houses should be made.

It was therefore agreed that the Cape Cod Survey, to begin July 1, should give top priority to such a comparative survey.

Yours sincerely,

*Richard W. Hale*

Richard W. Hale, Acting Chairman  
Massachusetts Historical Commission

JUN 25 1968

Mr. William J. Davis  
Assistant Regional Administrator  
for Metropolitan Development  
Department of Housing and Urban Development  
26 Federal Plaza  
New York, New York 10007

Dear Mr. Davis:

Submitted herewith is an Application for a Grant for Historic Preservation Purposes. Also enclosed are consultant studies prepared for the project and required supporting documentation.

The Boston Redevelopment Authority is requesting a grant of \$100,000 to be used for the rehabilitation and preservation of the distinguished rooms and interior architectural features of the George Francis Parkman House. This grant will be matched by a local contribution of approximately \$98,000, \$10,000 of which will be provided from the City of Boston and the balance from private sources.

The Parkman House is located at 33 Beacon Street and is prominently situated within the Beacon Hill Historic District. Built in 1824, the building remains one of the very notable examples of early Greek Revival town house architecture in Boston and is particularly significant for its retention of a considerable amount of original interior features of the highest quality.

The Parkman House was part of a large family bequest made to the City of Boston in 1908, and until completion of New City Hall in 1968, provided office space for the administrative staff of Boston's Parks and Recreation Department. After the vacancy of the house by the Parks Department, a study was undertaken to develop a reuse program for the building and to estimate the costs of rehabilitation and restoration. This

Mr. William J. Davis

-2-

study indicated that the building could be rehabilitated to function as a public museum and as a facility for formal receptions and conferences, for the accomodation of special guests of the City and Commonwealth. It was also determined that these new activities would be most successfully developed after the completion of a comprehensive program of interior rehabilitation and restoration.

Approval of this request for a Grant for Historic Preservation will insure the preservation of the original interiors of the Parkman House and will enable the City to use the building in its original form for functions relevant and complementary to those for which it was designed. This project will provide a model for renovation of related structures throughout the city and will demonstrate the adaptation of older residential buildings for contemporary uses need not result in the destruction of notable interior architectural features.

We will appreciate your consideration of this important project and look forward to further word from your office.

Sincerely,

A handwritten signature in cursive script, reading "Hale Champion". The signature is written in dark ink and is positioned above the printed name and title.

The documentation submitted in support of this application shall be considered part of this application.

## 3. EXECUTION

Boston Ind. Development Authority  
Legal Term of Approval

SECTION 1. BEACON HILL

1. The Beacon Hill Historic District is located within the Beacon Hill Historic District. This district was created by a special act of the General Court of the Commonwealth of Massachusetts and is subject to architectural control and design review procedures that are implemented by the Beacon Hill Architectural Commission.

The Boston Redevelopment Authority is the agency responsible for planning in this area.

The preservation and enhancement of structures in the Beacon Hill Historic District is consistent with the objectives of the Master Plan for the City of Boston and is one of the primary goals of the Beacon Hill Architectural Commission.

2. This application has been reviewed by the Boston Redevelopment Authority, which is the planning agency for the City of Boston. The Boston Redevelopment Authority finds that the development considerations in the comprehensive planning process are compatible with the project.

## E. Proposal Description:

1. Briefly describe historic or architectural significance of the property:

The George Francis Parkman House is of considerable architectural importance to the City of Boston. The building is an excellent example of early Greek Revival town house architecture of the 1820's and has survived in good condition with many original and elegantly detailed interior features remaining intact.

The building is prominently sited across from the Boston Common and forms, with a block of related houses, one of the most distinguished street facades in the City.

2. If State or local historic preservation plan exists, what is priority assigned to this proposal (if any) under the plan?

The Plan is in the process of formulation by the Massachusetts Historical Commission. Dr. Richard Hale, the Acting Director of the Commission, is briefed on this project and has assigned it very high priority.

3. Is property listed on the National Register? No If no, give specific references and authority used to determine historic or architectural value. If determination is based on criteria other than those established for the National Register, list or enclose copy of the criteria used.

The Parkman House, however, is a major building within the Beacon Hill Historic District which is a National Registered Landmark.

The Massachusetts Historical Commission has determined that the building is of significant architectural value to the City of Boston. The criteria used in this determination were modelled after those developed by the National Park Service and were adopted by the Commission in 1964. Copies of these criteria are attached.

4. If property to be acquired is now in public ownership, explain need for purchase:

Not to be acquired.

5. Is it intended to transfer the property by lease or contract to any individual, non-profit corporation or historical association? No If yes, give details.

In order to insure preservation of this architecturally notable property title will remain in the City.

6. Describe provisions for continued maintenance of property:

The City of Boston will continue to be responsible for the maintenance of the property.

7. Is there imminence of loss or damage to the property? *(include anticipated construction, use change, etc.)*  
Yes . If yes, explain:

Unless the property is appropriately restored and a suitable re-use program developed, serious alternation to the original interior architectural features may result.

8. Is acquisition and/or preservation of this site related to any other Federal program or has any other application for Federal assistance been submitted in connection with this site? No If yes, explain and give details, including application numbers where appropriate:

9. Describe proposed use(s) of property: *(give proposed admission or entrance fee, if any)*

Proposed adaptive uses of the property will include:

accommodations for visiting dignitaries and special guests of the City of Boston and the Commonwealth of Massachusetts; special conference rooms for civic meetings, and related functions; rental facilities for formal receptions, conferences and meetings; exhibition and gallery space; museum house activities.

Nominal fees may be charged for tours of the restored portions of the property.

10. If structure relocation is proposed: No

a. Indicate nature of threat to structure which necessitates its being relocated;

---

b. Describe proposals for relocating structure, and costs involved;

---

c. If Federal assistance is requested for acquisition of new site, explain why structure cannot be relocated on existing publicly owned site;

---

11. If restoration and/or improvement is proposed:

a. Describe restoration and/or improvement plan, listing proposed activities:

The proposed architectural program and cost estimates for the rehabilitation and restoration of the interiors of the George Francis Parkman House are taken from consultant studies prepared by Architectural Heritage Inc., and F.A. Stahl and Associates. Copies of these studies are included with the submission.

b. Give source(s) of proposed plan and cost estimates (*such as architect, professional restorer, historic society, present property owner, etc.*)

A breakdown of costs for the restoration and rehabilitation work is included with this submission.

(See attachments)

12. List source and dollar value for all services and materials included in the non-Federal share of costs. Indicate portion to be furnished by the applicant, other public body, or private source. Distinguish between force account, contract and volunteer labor. Where volunteer labor is included in the non-Federal share, specifically describe each activity to be performed by volunteers. Give basis for valuation placed on volunteer services and/or donated materials. Refer to Chapter 2, Section 2, of the Guidelines before completing this question.

It is anticipated that all services and materials included in the non-Federal share of costs will be provided under contract. It is estimated that the total cost of interior restoration and rehabilitation and appropriate fees is \$207,932 with a non-Federal share of \$107,932 of which approximately 10% will be paid by the Public Facilities Department of the City of Boston for architectural plans and working drawings. The remaining costs will be provided by private sources for rehabilitation and restoration work.

(See attachment -- for breakdown of costs)

ADDENDA TO SITE INFORMATION (HUD 6731-A)

- I.
1. Photographs of the exterior and interior of the Parkman House are included in the attached brochure.
  2. Relevant maps are in the attached brochure.
  3. Documentation of the architectural significance of the Parkman House has been prepared by the Massachusetts Historical Commission and is included in this submission.

II. NOT APPLICABLE.

III. 1. Copies of bids and estimates are attached.

HISTORY OF THE PARKER HOUSE

The Parker House at 33 Beacon Street, Boston, was given by George Francis Parkman as part of his large bequest to the City of Boston in 1903. Built in 1825 when it was built and 1903 when the City received it, this 174 year old house had only two families as owner/residents.

This four-story brick house with a first level of granite faces the Boston Common and is the center one of three houses, #34, #33 and #25 (formerly #32), to the immediate west of the State House. Of these houses, only #34 and #33 are now the original structures, #32 having been demolished and reconstructed in 1925, at which time the number was changed to #25. Until their removal to the New City Hall in November, 1968, the Boston Park Department had their headquarters in #33. The 1969 owner/occupant of #34 is Little, Brown & Company and of #25 (#32), the Unitarian Universalist Association.

The Parker House, along with #32 and #34, was built on property originally owned by the Hancock family. This land was purchased in 1821 from the heirs of Governor John Hancock by Israel Thorndike, a wealthy merchant and one of the early shipowners who became interested in manufacturing. In 1823 Thorndike sold to John Hubbard, also a prominent ship merchant, for \$46,790.38.

John Hubbard commenced construction of the three nearly identical houses in 1824 and was assessed in 1825 for "three new houses; also three stables, unfinished." He built them not with the intention of residing in one of them but as a real estate investment. Because of Hubbard's close friendship and partnership in many business ventures with Cornelius Coolidge, it is a probability that Coolidge, architect/builder of other houses on Beacon Hill, was the architect of these three structures.

The architect was Cornelius Coolidge, 1835-1896, a prominent architect in Boston, who designed many of the houses on Beacon Hill. He was born in 1835 and died in 1896. He was a member of the Boston Architectural Society and the American Institute of Architects. He was also a member of the Boston Society of Architects. He was a very successful architect and his work is still seen in many of the houses on Beacon Hill.

For a further history of the noted Tichonologist, Professor Edward Tuckerman of Cornell, for whose Tuckerman's Ravine on Mount Washington was named, lived at her for twenty-eight years. In 1853, after Tuckerman's death, the house was sold to the widow of Dr. George Parham for \$40,000, who came in with her son, George Parham, and her daughter, Harriet.

"A murder provoked, in one view, by the victim's vindictive pursuit of a financially harried man, consequent to the discovery that a cabinet of minerals pledged to him by Webster as security on a loan was later pledged for the same purpose to George Perkins's brother-in-law, Robert Gould Shaw. But whether or not George Perkins's later conduct can be described as vindictive, his original impulse in his dealings with Professor Webster was evidently enough one of generosity." (Francis Perkins by Howard Baughly.)

The conflict of public opinion concerning Webster's trial and courage at death sentence was deeply disturbing to Dr. Parkman's widow and two children, the became virtual recluses in their house on Beacon Street. They lived a frugal life, conducting their household affairs with rigorous economy and no one was stranger to enter. The murder, trial and resulting publicity ended George Francis' life and certainly stopped short his promising law career, for which he had trained at Harvard. Neither he nor his sister ever married and when their mother died in 1877, they inherited the estate, including #33 Beacon Street. After his sister's death in 1885, George Francis remained the sole heir to considerable fortune which had increased by his management of the investment and of whatever income was not required to maintain their modest living.

As has been said, this house included the "Kitchen Boat". When the Botanical Park Department moved their office there, they made very few architectural changes. The old house still remains much as it was when it was built in the early 19th century.

Churches and other religious organizations of different and religious beliefs, but which are not of a good as the others. Of history, such as political, military, economic and social history, will not readily be accepted.

Structure of data of project related to the above, relative to events of research, rather than to the subject of the study, the individual.

Since all but one of the witnesses identified the person to whom the certificate was issued as the author of the letter, and since the person named in the certificate was not the author of the letter, the certificate is not reliable. The certificate is not reliable because it is not based on the evidence presented at the trial. The certificate is not reliable because it is not based on the evidence presented at the trial.

Carbide giving off light, and also to produce a light of one color may be obtained by the use of a suitable mixture of oxides, or indeed, that by combination of different carbides.

### Original Kitchen - Second Floor

This room is devoid of any historical period trim and is therefore open to change to provide the servicing facilities mentioned or required to service the front room. It is possible to reduce the size of this room and make available an adequate coat storage area and serving pantry while retaining this room as a suite with interior connecting lobby with the front room, enabling the two rooms to be used either separately or together.

This room is seen as a smaller conference or meeting room, capable of handling ten to twelve people, and served by the same facilities as the larger front room.

### Existing Courtyard

The courtyard is at an elevation approximately 1'6" above floor level of the existing kitchen, and offers great potential for landscaping and terracing to make the existing floor level with access provided by French doors in place of the present high windows.

This arrangement would enable all of the plants etc. on the ground floor to relate directly to an outside courtyard garden area and should be considered in the ultimate framework for the improvement of the building.

### Ground Floor Service Facilities - Proposed

In addition to those mentioned above, adequate men's and women's toilets, flexible space for additional counter and area for the temporary storage of food and other portable equipment from which they be used in these spaces.

The space available for reception is extremely tight, and the adjacent space appears to be too narrow and ill-planned for a reception area. It is suggested that a more rational floor plan be followed in the basement with access by the basement stairs. A new entrance to the library at this level would provide a reception area, and a ground floor reception area.

### Summary

The proposed changes to the existing building are designed to provide a modern, functional, and comfortable environment for the library. The changes are designed to be implemented in a phased manner, with the most critical changes being completed first.

### Second Floor, continued

Dining may be accommodated handsomely in the rear section of the double parlor, ranging from small breakfast settings to larger dinner parties of twelve to fourteen people. Banquets for larger groups might be readily accommodated by extension of the table through into the front section of the double parlor.

Major receptions may be accommodated by joint use of the double parlor rooms with the smaller front room serving as an entrance or small retiring room. This room would normally be used as a holding area for visitors to the guests accommodated in the house, and would be available as a small, private conference area for such guests and their visitors.

In general, these three rooms would be furnished as dining room, living room, and library, respectively.

Toilet facilities for men and women should be accommodated on this floor, with a small powder room provided for the ladies' lavatory.

Two areas are available in the service wing which may be developed as a caterer's kitchen area and a house kitchen, or possibly a single combined facility may be accommodated in one of the existing two rooms. This would have the advantage of making the service distances shorter and making available the rear of these rooms for curative storage and caterers' loading and unloading.

In addition to the kitchen facilities proper, an area is required to serve as pantry for storage of table linens, glasses, china and for domestic scale dish-washing functions.

### Carriage House, First Level

The first level of the Carriage House entered on grade from the Plaza is on the approximate level of the second floor of the Preliminary Plan, primarily served by a narrow enclosed hallway.

It is anticipated that a two-car vehicle garage for the carriage house will be located on this level, and that this level would also serve as a storage area for the car and a refuge to the existing parking facilities with some minor modifications.

- 4 -

The development of the rear of the Carriage House should provide for future access to its second floor, parking area and truck loading area, unloading area and staging area for containers and trucks and supplies and toilet for caterers and other service personnel.

It is not contemplated that any use would be made at the present of the second story left space of the Carriage House.

### Third Floor

The bedroom accommodation recommended would consist of two large bedrooms capable of containing two double beds each with suitable conversation area, furniture, with built-in wardrobes and inter-connecting doors. Toilet nearer accommodation for the front bedroom would be developed in the small sitting room without the intention of a conventional toilet facility as a separate room but by a sympathetic handling of the original room and with suitable period fixtures. This approach would result in a very luxurious toilet with view, fireplace, mirror or writing table/vanity arrangement.

The rear bedroom could be served by a toilet facility across the hall, of a high-quality domestic level of planning.

This plan arrangement allows the two rooms to be used separately or jointly, as is the recommended pattern based on client house experience; it may more easily be accommodated into the existing structure than the alternative proposal which would place two new toilets back to back between the existing bedrooms. This arrangement would tend to compromise flexibility and result in smaller bedrooms. It would, however, make available a second bathroom and a third bedroom.

Linking the sitting room, rooms and gallery and the two bedrooms into a continuous inter-connecting link of movement would be proposed. This has the effect of making a difference between the front and rear bedrooms, a difference in quality of rooms.

### Conclusion

It is recommended that the Carriage House be built as a two-story house with the front and rear bedrooms, the sitting room, the gallery and the two bedrooms, a difference in quality of rooms.

- 5 -

#### Business Office, continued

It is anticipated that a full-time manager will be in the building by the day and that periodic need for a second working position will be generated by outside accountants, occasional secretarial help, and the like.

#### Vault

It is proposed that the vault be left in tact for the storage of silver, objects d'art, etc., either belonging to the Parkman House or on loan - used for special occasions. Should the need arise to utilize the 2nd Floor of the carriage house a bridge could be constructed connecting as below and the vault merely shortened to provide a passage way in the future.

#### Fourth Floor

To be exactly the same as the Third Floor i.e. two large Bedrooms - one with connecting bath and one with bath across the hall.

It is proposed that an apartment be provided for a "house man" or caretaker, including a Bedroom with lavatory built in, a wardrobe with space for a single bed and furnishings - a small toilet room with shower stall, extra closet space and a small living-dining area with a cabinet type kitchenette.

#### Fifth Floor

This floor has 3 smaller rooms, with sloping ceilings and dormer windows - stairs to the elevator machine room. There are no plumbing facilities on this floor. It is proposed that this floor be left as is for the time being. It can be used for storage.

Minimum Use

First Floor

Install the new pantry, furniture and coat room - use existing toilets. Painting, decorating and furnishing.

Second Floor

Use existing toilet, provide some coat storage space. Painting, decorating and furnishing.

Third and Fourth Floors

Painting and decorating. To remain as is or used as office space.

Carriage House

Should be made weathertight.

Mechanical Work

In either case the electrical system should be brought up to code and Department of Public Safety Standards including emergency lights and a fire alarm system installed.

PRELIMINARY COST ESTIMATE

Phase 1 - First Floor: includes making the carriage house weathertight, removal of partitions in large front room, installation of kitchen, bath, coatroom, etc., painting and decorating throughout, in general to make first floor area useable for small receptions, conferences, or cocktail party. It does not include bringing electrical work up to code requirements.

A. Phase 1 - Estimate:

Plumbing, HVAC and making carriage house weathertight	\$ 6,500.00
Work of General Contractor	<u>17,000.00</u>
Total	\$ 23,500.00
If electric work required at this time, add	<u>\$ 12,000.00</u>
	\$ 35,500.00

Phase 2 - Second Floor: includes work in carriage house, new cover for driveway, exterior painting, all interior work shown in plans, toilet and washing facilities. All other work in interior shown on Phase 2 plans including new kitchen and dining room, new living room, new bathroom, new bedroom, new office, new study, new library, new large reception room, new coatroom, new entrance, etc.

## PRELIMINARY COST ESTIMATE - 2 -

7 April 1969

## Phase 2 - Second Floor: (Continued)

## B. Phase 2 - Estimate:

All second floor work as shown on Phase 2 plans	\$ 15,700.00
Allowance for caterer's kitchen equipped	10,000.00

Phase 3 - Third and Fourth Floors and work on First and Second Floors:

shown on Phase 3 plans - This work includes complete painting and decorating of third and fourth floors, complete plumbing, heating, ventilating and airconditioning, bring electric work up to code requirements throughout if not completed in Phase 1 or Phase 2, providing the required new bedrooms and baths on third and fourth floors, all new partitions and millwork shown on plans. Phase 3 also includes the new toilet facilities and other work shown on Phase 3 plans on First and Second Floors, but which were not included in Phase 1 and Phase 2. Phase 3 is in effect the building complete and ready for occupancy for functions mentioned in Phase 1 and 2 plus living or summer dining, office space and custodial quarters.

## C. Phase 3 - Estimate:

Mechanical, Plumbing, HVAC	\$ 44,000.00
Electrical (note: Deduct 12,000 from this figure if brought up to code requirements)	45,000.00-\$33,000.00
General Contractor	<u>45,000.00</u>
	\$ 134,000.00

PRELIMINARY COST ESTIMATE - 5 -

7 April 1969

TOTALS:

Phase 1 (including elec. required)	\$ 35,500.00
Phase 2 (including kitchen equipped)	<u>25,700.00</u>
Sub-Total	\$ 61,200.00
Phase 3	<u>\$ 122,000.00</u>
	\$ 183,200.00

ARCHITECTURAL AND ENGINEERING FEES

"C" rate, 10.5% plus 5% alteration - 13.5%	<u>\$ 24,732.00</u>
	\$ 207,932.00
* (Minus \$10,000 in budget P.F.D.)	<u>10,000.00</u>
GRAND TOTAL	\$ 197,932.00

\* NOTE: We understand that The Public Facilities Department has \$10,000 in 10 over from last year's budget, appropriated for this project.

## JOHN C. CONLEY

ATTORNEY AT LAW

SUITE 426

73 TREMONT ST., BOSTON, MASS. 02108

June 20, 1969

Boston Redevelopment Authority  
1 City Hall Square  
Boston, Massachusetts 02201

Gentlemen:

I am an attorney-at-law admitted to practice in the Commonwealth of Massachusetts.

I have examined the Boston Redevelopment Authority's application for a grant under Section 709 of Title VII of the Housing Act of 1961, as amended, whereby assistance is requested for the rehabilitation of certain property for historic preservation described as the George Francis Parkman House. The property is owned by the City of Boston. Under Massachusetts Acts of 1960, ch. 652, the planning board for the City of Boston is the applicant, the Boston Redevelopment Authority.

I have also reviewed all pertinent Federal, State, and local laws, including local charter provisions, which establish the Boston Redevelopment Authority as a public body, empower it to receive and expend Federal, State and local funds, and empower it to contract with the United States of America for the purpose of receiving a grant under Section 709 of Title VII of the Housing Act of 1961, as amended.

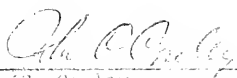

I have made appropriate inquiry and I am satisfied that there is no pending or threatened litigation, in either Federal or State courts, challenging the Boston Redevelopment Authority's authority to improve and restore property for historic preservation or to contract with the Federal Government for the purpose of receiving a grant under Section 709 of Title VII of the Housing Act of 1961, as amended.

Based upon the foregoing, it is my opinion that the Boston Redevelopment Authority is a public body empowered to receive and expend Federal, State, and local funds, to contract with the United States of America for the purpose of receiving a grant under Section 709 of Title VII of the Housing Act of 1961, as amended, and to undertake and complete the proposed rehabilitation of the above described property, and to retain, maintain and preserve said property for public use and benefit for historic preservation purposes.

Citations to pertinent State and local laws:

M.G.L., ch. 121

Mass. Acts 1960, ch. 652, as amended

  
John C. Conley  
Attorney-at-law

1. The first part of the paper is devoted to the study of the properties of the function  $f(x)$  defined by the equation

$$f(x) = \int_0^x \frac{1}{\sqrt{1-t^2}} dt$$

for  $x \in (-1, 1)$ . It is shown that this function is strictly increasing and concave down on the interval  $(-1, 1)$ . Moreover, it is proved that the function  $f(x)$  has a unique maximum at  $x = 0$  and that this maximum is equal to  $\pi/2$ .

2. In the second part of the paper, we consider the function  $g(x)$  defined by the equation

$$g(x) = \int_0^x \frac{1}{\sqrt{1-t^2}} dt$$

for  $x \in (-1, 1)$ . It is shown that this function is strictly increasing and concave down on the interval  $(-1, 1)$ . Moreover, it is proved that the function  $g(x)$  has a unique maximum at  $x = 0$  and that this maximum is equal to  $\pi/2$ .

CERTIFICATE OF VOTE

The undersigned hereby certifies as follows:

(1) That he is the duly qualified and Acting Secretary of the Boston Redevelopment Authority, hereinafter called the Authority, and the keeper of the records, including the journal of proceedings of the Authority.

(2) That the following is a true and correct copy of a vote as finally adopted at a meeting of the Authority held on June 19, 1969 and duly recorded in this office:

On motion duly made and seconded, it was unanimously

VOTED: that the Director hereby is authorized in the name and behalf of the Boston Redevelopment Authority to execute and to file an application to the Department of Housing and Urban Development for a grant in the amount of \$100,000, as authorized by Section 709 of Title VII of the Housing Act of 1961, as amended.

(3) That said meeting was duly convened and held in all respects in accordance with law, and to the extent required by law, due and proper notice of such meeting was given; that a legal quorum was present throughout the meeting, and a legally sufficient number of members of the Authority voted in a proper manner and all other requirements and proceedings under law incident to the proper adoption or the passage of said vote have been duly fulfilled, carried out and otherwise observed.

(4) That the to which this certificate is attached is in substantially the form as that presented to said meeting.

(5) That if an impression of the seal has been affixed below, it constitutes the official seal of the Boston Redevelopment Authority and this certificate is hereby executed under such official seal.

(6) That Hale Champion is the Director of this Authority.

(7) That the undersigned is duly authorized to execute this certificate.

IN WITNESS WHEREOF the undersigned has hereunto set his hand this 20th day of June 1969.
